Rich Lewis
Director

DATE: January 19, 2011

TO: All Antifreeze Manufacturers and Distributors

FROM: Rich Lewis, Director, Fuel & Measures Division

RE: Antifreeze Registration / Annual Renewal

Before any antifreeze shall be sold, exposed for sale, or stored, packed or held with intent to sell in the State of Georgia, the antifreeze brand must be registered with the Georgia Department of Agriculture. Renewal of a current antifreeze registration must be completed before June 30 each year. Richard.Lewis@agr.georgia.gov

To renew a current brand registration (or register a new brand), the following **must** be met:

1. Application(s) submitted in duplicate, no later than June 15 of every year by the manufacturer, packer, or distributor. Several application forms are enclosed. Please note that this form was revised July 2009 and should be used (not the older version). Feel free to make copies of these for your use. If you have any questions regarding the completion of the application, please contact this office.

2. A formulation certificate attachment form must be submitted for each formulation used by you. Certified test reports of the product formulation prepared by an independent laboratory recognized by the Georgia Department of Agriculture may or may not be required in accordance with this form's instructions. Please note that this form was revised July 2009 and should be used (not the older version). Several copies of this form are enclosed; feel free to make copies of these for your use. If you have any questions regarding the completion of the application, please contact David Au, State Oil Chemist. He can be reached at 404-363-7597, Fax 404-363-7694 and Email David.Au@agr.georgia.gov.

3. License fees of \$50.00 **for each brand or type of antifreeze** and a product label (color label, front & rear as they appear on container).

A check should be made payable to the Georgia Department of Agriculture and mailed, along with the other items identified above, to the following address:

Georgia Department of Agriculture
Fuel & Measures Division, Room 321
Capitol Square
Atlanta, GA 30334

This document as well as application and formulation certificate forms can be downloaded from the web site at
