

HINDER™

A deer repellent for use on cotton

FIFRA Section 24(c) Special Local Need (SLN) Label

For distribution and use only within the state of Georgia

EPA REG. NO. 5481-508

EPA SLN NO. GA-240003

KEEP OUT OF REACH OF CHILDREN

DANGER/PELIGRO

This label expires and must not be distributed or used in accordance with this SLN registration after December 31, 2029.

DIRECTIONS FOR USE

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label for EPA Reg. No. 5481-508.

APPLICATION DIRECTIONS

SHAKE CONTAINER WELL BEFORE MIXING OR APPLYING ITS CONTENTS. Hinder may be applied by conventional spraying equipment ranging from small hand-held sprayers to commercial sprayers.

Under reasonably dry conditions, Hinder should be reapplied every 10 - 14 days for as long as plant protection is needed and the treatments appear to be effective.

Rain may wash Hinder off treated vegetation. Treatment should be repeated after heavy rains. DO NOT apply Hinder when rain is expected within the next 24 hours.

DO NOT apply during bloom period as treatments may result in phytotoxicity.

Cotton: Mix 1 to 2 quarts of Hinder per 10 gallons of water. Apply by ground or aerial equipment at rates of 10 - 20 gallons of spray solution per acre.

Restrictions / Precautions

This product may be hazardous to aquatic invertebrates. Do not apply directly to water, areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. No unreasonable adverse effects to people or the environment will result from the use of the proposed SLN.
